

Notate

Digital Paper & Annotation for Secure Teamwork

Collaborate on any document, from any device, ensuring that your team remains at the forefront of efficiency and security.

Tailored Collaboration for Professionals

Robust annotation and superior PDF interaction

Enable your team to work on documents, providing immediate feedback and decisions.

Document collaboration and feedback loop

Facilitate clear communication on complex data, minimizing mistakes and maximizing efficiency.

Shared task management right from notes

Convert annotations into tasks, delegate responsibilities, and ensure smooth project execution.

Bank-Level Security Standards

Microsoft InTune Compatibility

Enhance mobile device management and ensure secure collaboration by seamlessly integrating with InTune, meeting corporate compliance and security standards.

Exchange Sync-up

All data is securely stored in Exchange, eliminating the need for additional databases, ensuring consistent data access, and automated backups.

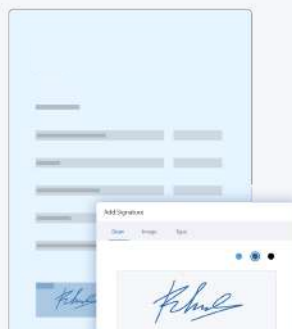

No Public Cloud

With the "No Public Cloud" option, you retain complete control over your data's storage and access. Your information stays securely within your network, complying with your organization's stringent security protocols.

Secure signature

Notate's secure signature feature guarantees authenticated and tamper-proof digital signing, reinforcing trust and integrity in every document.

Robust Annotation & Superior PDF Interaction

Advanced Annotation Tools

Utilize a rich suite of annotation tools tailored for precise feedback. This includes highlighting, underlining, striking through, freehand drawing, shapes, sticky notes and voice memos.

Smart summary

Based on the annotations made, Notate can generate a concise summary, highlighting the key points and concerns of the document. Ideal for quick reviews or sharing insights with team members unfamiliar with the full document.

Handwriting recognition

Convert handwritten notes to text and facilitate searches using your own handwriting

Easy categorization

Notate's intuitive folder and sub-folder system seamlessly organizes annotations, ensuring swift categorization, retrieval, and collaboration on critical insights within a structured hierarchy.

Email Attachments Import

Ensure the sanctity of your operations by only allowing secure, vetted attachments, eliminating potential threats.

Notate

Adaptive to the Corporate Landscape

User Feedback Driven

In the fast-evolving world of technologies, Notate ensures that feedback from industry professionals directly shapes its features and updates.

Round-the-Clock Support

For a sector that never sleeps, our support is available **24/7 to assist with any requirements.**

Compatible with Microsoft 365 tools

Integration-Ready

As technologies evolve, Notate is prepared to integrate with Microsoft tools and platforms, such as OneNote, ToDo, Outlook.

Elevate your team's efficiency and collaborative capabilities with **Notate.**
